Three Religions, One Holy City

An Educational Day Tour Highlighting the Importance
of Jerusalem to Three Major Religions

This fascinating day tour reveals the history of the Temple Mount and Jerusalem's sacredness to the three monotheistic religions: Christianity, Islam and Judaism while combining it with special personal encounters with representatives for each religion.

The day will begin by touring the Temple Mount and followed by a meeting with a Muslim Imam explaining its importance to Islam and learning about where it is mentioned in Islam literature.

Continue the day with a hands-on archaeological dig experience in the Tzurim Valley. Sift through archaeological materials dating back from the Temple Mount and learn to recognize the importance and history of the mountain to Judaism with a Jewish Archeologist.

Following, visit the top of the Mount of Olives for a beautiful overview of Jerusalem and a meeting with a Christian Pastor to learn about the sacred Christian sites in the Old City and their significance to Christianity. The tour will conclude with a walk down the hill to the ancient tombs at Dominus Flevit Church and the Garden of Gethsemane.

We highly recommend including this special educational day tour in your future group programs during their visit in Jerusalem.
